MEMORANDUM FOR: Deputy Director for Science and Technology

25X1A5a2 SUBJECT: Initial Funding for the █████ Photo
Evaluation Contract

25X1A1a

1. Approval is requested for the commitment of █████ of SAS FY 64 funds to cover the first month's effort of the █████ Photo Evaluation proposal. The proposal is a nine month █████ project included in the SAS FY 65 program. However, it is essential to initiate the contract as soon as possible in order to insure the commitment of several key █████ personnel to the project.

25X1A5a2

2. The Photo Evaluation project has the dual purpose of investigating a series of satellite photography simulation techniques and examining various complementary criteria for the objective measure of photo image quality. The project has been discussed in detail with NPIC/Assistant for Plans and Development. While NPIC is interested in some aspects of this program, it is clearly in line with the continuing SAS investigations aimed at developing procedures for relating photographic systems to photo requirements, and therefore, should be funded as part of the SAS program.
